- Coaching
- Give training in several technologies
- Third line support

May 2014 – September 2014

Migratie physical servers to virtual platform

- Deploy ESXi 5.5 cluster
- Exchange 2003 -> 2010 -> 2013 migration
- Upgrade Active Directory to 2012 R2 (with new features as *Recycle Bin* and *DFS-R*)

February 2014 – June 2014

Active Directory/Exchange migration of several fire stations. The stations are bundling forces in a larger 'zone'-network, abandoning the existing Active Directory under supervision of the local city.

- Exchange 2003/2007/2010 to an Exchange 2010 DAG cluster
- Active Directory migration of all objects with ADMT
- Assist in migration of other tools and services. For example: 112-dispatching

March 2014 – April 2014

Upgrade an existing network to current technologies

- Deploy ESXi 5.5 cluster
- Upgrade Domain Controllers to Server 2012 R2
- Deploy Microsoft DPM 2010 solution + offsite solution (DPM2DPM)

November 2013 – February 2014

Network review / Upgrade single SBS2003 to multi server environment

- Deploy ESXi 5.5 cluster
- Exchange 2003 -> 2010 migration
- Optimize physical network (slice network in multiple subnets)
- Setup monthly maintenance

September 2013 – October 2013

IBM Lotus Notes to Office365 migration

- Office365 vs. Lotus Notes feature assessment
- Office365 stand-alone setup
- Overnight big-bang migration of mail flow
- Migrate Lotus Notes data to Office365

August 2013

Exchange 2007 to Office365 migration

- Active Directory synchronization (DirSync)
- SSO with AD FS 2.0
- Migrate existing Exchange 2007 mailboxes to Office365 (phased migration)
- Remove on premise Exchange servers

August 2013

Exchange 2013 and Office365 hybrid setup

- Setup Exchange 2013 and Office365 in a hybrid configuration
- Migration VIP mailboxes to Office365
- Different mail routing for separate domains
 - On-premise mail filtering vs. Exchange Online Protection
- Mailbox archiving in on premise environment

December 2012 – March 2013

Split network in two Active Directory domains

- International movers company
- Split an existing network in two separate Active Directory domains with a trust relationship.
- Deploy ESXi 5 cluster
- Upgrade Domain Controllers to Server 2012
